NEXE

Esomeprazole 20 mg enteric coated tablet

SHOWS EXCELLENT pharmacological properties

Faster onset of action

Parameter	NEXE (Esomeprazole)	Omeprazole	Pantoprazole	Rabeprazole
Time to reach peak plasma concentration	1 hour	3.5 hours	3.1 hours	3 hours

Ensures quick relief to patients

Longer duration of action

Parameter	NEXE (Esomeprazole)	Omeprazole	Pantoprazole	Rabeprazole
Longer duration of action (intra-gastric pH>4)	18 hours	10 hours	11 hours	11 hours

Patients feel better for long time

Higher bioavailability

Parameter	NEXE (Esomeprazole)	Omeprazole	Pantoprazole	Rabeprazole
Bioavailability	80%	40%	77%	52%

Ensures better acid inhibition

- Pregnancy category B
- Highly stable metabolic pathway compared to other PPI
