

**It's time for
some fun
in the sun!**

To ensure **happy and enjoyable summer**, proper protection & treatment against **summer's common illnesses** is very important. **Azinil** (Azithromycin) is the unique solution to summer illnesses.

Typhoid Fever

Each year, worldwide, there occurs at least 13-17 million cases of typhoid fever, resulting in **600,000 deaths**. **80%** of these cases and deaths occur in Asia alone.

A Rational Choice in Typhoid Fever

Children & Adolescents

Dose: 20 mg/kg once daily (for 5 days)

Adults

Dose: 500 mg once daily (for 7 days)

Clinical cure rate of Azithromycin

0%
relapse

According to the clinical study, there were **0% relapse rate**

✓ **Best option to treat Typhoid Fever**

Ref: J Antimicrob Chemother 1999 Aug; 44(2):243-50

Cholera

According

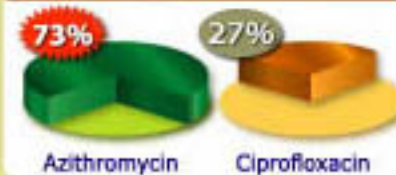

to **icddr,b** single dose of Azithromycin is effective in the treatment of severe cholera in children

Moreover,

the same study from **icddr,b** has proved that single dose of Azithromycin is also an effective treatment option for severe cholera in adults

- **No. of Patients** : 198 (18-60 years)
- **Intervention** : Azithromycin 1000 mg
Ciprofloxacin 1000 mg
- **Outcomes** : Outcomes at 48 hours

Clinical success

Bacteriological success

✓ Conclusion:

A single dose of 1000 mg Azithromycin was much more effective than a single dose of 1000 mg Ciprofloxacin for treatment of severe cholera in Bangladesh.

Ref: Clinical Trial report from The England Journal of Medicine 2006; 354: 2452-62

Dosage guideline for the treatment of Cholera :

- Adult - 1 gm single dose
- Child - 20 mg/kg single dose

Azinil
